

YOU NEED TO BUY A NEW BOILER

Search online for a new boiler which will suit your needs. It needs to be able to heat a one-bedroom flat as a minimum. Once you have found one, make a note of the price and explain how you intend to pay for it.

To do this, you will need to return to your notes from the first few lessons to remind yourself of your monthly take-home pay and any of the spending commitments you may have. Do you have savings? Have you got, or can you get, a loan or credit card? Or, is there a finance option to buy the boiler from a supplier?

EYE CARE

Investigate how often the NHS recommends you should take a sight test.

Make a note of some of the conditions that an optician might be looking for during routine tests and explain the potential consequences of each condition.

EYE CARE

Use what you have learned to identify the next vaccination or check-up that you are due to have. You may find there are some you have missed or you're unsure of, in this scenario you should speak to your GP.
